

MANAGING DIRECTOR

Glasgow

Six Figure Package

Our client is a very long established subcontractor to the construction and building industry, a company of great heritage repute, and with a significant turnover, is probably the biggest of its type in Scotland.

Perhaps unsurprisingly, it has not had its easiest three years in its trading history but its balance sheet remains strong and its shareholders supportive. There is therefore a strong platform to lead the business through the next phase of its history.

We are looking for someone to lead the business as if it were their own. Whereas it would in many ways be helpful, the new MD needn't have a sector background – the business has been around a long time and has significant expertise in what it does. What is required is clarity of leadership and vision, motivating and influencing skills, the commercial acumen to drive profitable growth and the ability to build strong teams. It goes without saying that we are also looking for strong communication skills, authority, gravitas, energy, honesty and integrity, all of which the business has traded heavily on.

To apply, please send your CV and a covering letter FAO Willie Finlayson,
